

COASTAL SKINCARE MADE IN SWEDEN

PRODUCT CATALOGUE 2019

L:A BRUKET

THE CLEANSING POWER OF NATURE

Natural and organic skincare made on the west coast of Sweden, formulated with the philosophy that we don't need chemicals to innovate skincare.

Wind, mud, salt, rock, ice, sand, water and sun in a tangle of continuous change: Swedish nature isn't something you visit, it comes to you whenever you step outside. Under these harsh coastal conditions our skin and hair get weathered, however rather than hide from nature, we turn to it for inspiration and answers.

From 2008 we have been developing natural formulas to protect and nurture skin and hair, with the understanding that if our products are effective despite the unforgiving conditions, they'll be of a quality more than capable to meet the demands of any situation and any place.

Our visionary product development work is backed with a well-established knowledge of natural skincare. We are uncompromising when it comes to the purity of our formulas, because to protect and restore your skin, you must nurture it with only the natural molecules it can absorb and utilize to perform better.

15-MINUTE RITUAL

At L:a Bruket we believe that the best skincare is simple. Simple ingredients and components, enhanced through simple processes, to create simple products and routines.

We believe that healthy skin can be achieved through simple 15-minute daily celebrations. Time for reflecting and preparing for the day ahead. Holistic rituals that reinforce healthy habits for real benefit.

L:a Bruket products are designed for these skincare rituals. Each created to reinforce those much needed 15-minutes a day. We look forward to sharing them with you.

TATTOO CARE

We love all aspects of skin and our mission is to make sure exposed skin is well taken care of, no matter the environment. For precisely that reason we developed natural skin care products with carefully chosen ingredients to care for tattooed skin.

Each product is formulated to nourish, moisturise and protect tattooed skin in all its phases. The essential oils and extracts are chosen to add bacteriostatic and calming properties as well as to help expedite the repairing process. To make sure we would make the best possible products the developing process was advised by renowned tattoo studio Sang Bleu London.

FRAGRANCE

L:a Bruket have long celebrated the power of aromas and fragrances to heighten and influence well-being. The ability to ease anxiety or aide relaxation simply by burning a candle or registering the changes of a perfume to the skin throughout the day.

Our natural organic Perfume oils were created using different scents – myrrh, hinoki and petitgrain – to ease tension and create calmness, invigorate and sharpen concentration or soothe and relax. But not the least to give a pleasant fragrance experience.

Nº 173 PERFUME OIL HINOKI

PRODUCT: Organic oil scented with hinoki. The scent is fresh and woody, resembling Japanese cypress and will strengthen focus and energy. It will also sharpen concentration and act mentally strengthening. Apply on pulse points for a woody outdoor scent and an energising focusing effect.

ACTIVE INGREDIENTS: The perfume oil is based on natural organic vegetable oils of sunflower, jojoba and meadowfoam that are rich in omega 6 and vitamin E as well as moisturising and protecting for sensitive skin.

VOL/WEIGHT: 10 ml (SKU 10982)

Nº 174 PERFUME OIL PETITGRAIN

PRODUCT: Organic oil scented with petitgrain. The scent is green and bittersweet, calming and relaxing. It is said to improve memory and to work well under pressure and stress. Apply on pulse points for a green bittersweet scent and a soothing relaxing effect.

ACTIVE INGREDIENTS: The perfume oil is based on natural organic vegetable oils of sunflower, jojoba and meadowfoam that are rich in omega 6 and vitamin E as well as moisturising and protecting for sensitive skin.

VOL/WEIGHT: 10 ml (SKU 10984)

Nº 172 PERFUME OIL MYRRH

PRODUCT: Organic oil scented with myrrh and cedarwood. The scent is sweet and woody, calming and said to raise concentration. In aromatherapy myrrh is used to release tension and anxiety. It is also known to prevent signs of ageing as myrrh is slightly astringent. Apply on pulse points for an aromatic calming and focusing effect.

ACTIVE INGREDIENTS: The perfume oil is based on natural organic vegetable oils of sunflower, jojoba and meadowfoam that are rich in omega 6 and vitamin E as well as moisturising and protecting for sensitive skin.

SCENTED CANDLES

Made of wax from organic soy, hand poured into mouth blown glasses by skilled craftsmen. The rich scent and glass design brings a wonderful ambience to any room. Some of the candles will boost your energy levels when you are feeling tired and weary while others will help you relax and unwind. Our candles are available in three versions: size large, small travel size and refill.

A FEW TIPS:

1. Remember that it is better to light candles for shorter periods of time rather than an entire evening in order to maximise the scent and make them more long lasting. The small 50g candle is to be lit no longer than maximum 2 hours at a time.

2. Cut the wick to a length of 5-7 mm before lighting and relighting the candle in order to reduce soot. The 50g candle to maximum 5mm.

3. If you are worried about damaging the surface you place the candle on, place the lid underneath the glass to protect it from heat if the candle burns all the way down.

REFILL:

Our refills for the scented candles are available in all scents and designed to be gently melted in a microwave oven or water bath and poured into their containers by hand. The refill contains our high quality scented wax from organic soy, cotton wick, wick anchor and a wooden wick holder.
